

Cleveland High School CTE Two-for-One Request Form

Name: _____ Student ID: _____ EYG: _____

Beginning with the class of 2016, students who earn CTE credit as required for graduation by taking a course that is cross credited in a non-CTE subject that is also required for graduation and vice versa, may count the course as meeting graduation requirements in both subject areas. For example, if a student takes photography as a CTE course and photography is also cross credited as fine arts, the .5 credit earned in that one class may count toward both CTE and fine arts requirements. If a student earns credit in a fine arts drama class that is cross credited as a CTE course, the .5 credit earned in that one class may count toward both CTE and fine arts requirements.

| | | • APCS PRIN 2 | CMA4105 | • Bio 100 (UW) | CSC7719 |

Student Signature

I have met with my counselor and understand the total credits required for graduation will not change, and if one class counts as meeting graduation requirements in two categories, I will need to earn additional elective credit in order to earn the total number of required credits.
